

Mike Maczuzak
Founder and Designing President
SmartShape Design

Mike Maczuzak has been working in new product development for 25 years, is passionate about design and innovation and has extensive knowledge in prototyping and manufacturing processes. Mike has an undergraduate degree in Industrial Design and an MBA with emphasis on doing business with China. He travels often to Asia, speaks Mandarin Chinese and has worked extensively with Chinese manufacturers on behalf of US clients.

Mike is founder and president of SmartShape Design, a full service product development firm with offices in Cleveland, Shenzhen and Suzhou China. Since 1989, SmartShape has developed successful and award-winning consumer products, medical devices and commercial equipment for Fortune 100 companies, start-up companies and individual entrepreneurs. SmartShape designs and manufactures products for clients in USA, Europe, Japan, India, and China.
